

**Specialist Freight Forwarding, advice and Consultancy Services  
to UK and Overseas Customers**

**Established in 2012**

Formed in 2012 as a specialist freight forwarding company offering tailored, comprehensive and competitive logistics solutions to UK and Overseas customers utilising all transport modes.

**Over 60 years combined experience in Defence**

With over 60 years' experience in the Defence sector, covering the manufacture/shipping of hazardous and military products and with a reputation for absolute attention to detail, we initially focused on providing safe and legal movement of Class 1 explosive material, Marine/Military pyrotechnic products and weapons and ammunition.

**Extensive range of freight services**

We have since developed to meet our customers' requirements by offering a comprehensive range of Freight Forwarding, Logistics and consultancy services for General Cargo, Dangerous Goods classes 1-9, Weapons and Ammunition and Oversize, Abnormal Loads or Out of Gauge (OOG) shipments.

**SECTION 5**

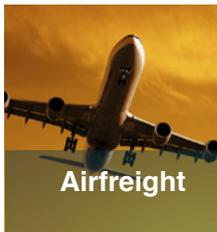

**Authorised by the UK Home Office to acquire, possess and transfer in the course of our business prohibited weapons and prohibited ammunition to which Section 5 of the Firearms Act 1968 (as amended) applies.**

**Dangerous Goods Adviser**

Businesses that handle, process or transport dangerous goods on a regular basis must appoint a Dangerous Goods Safety Adviser (DGSA) in order to comply with the Safety at Work Act 1974. Holding DGSA certification, Pentland Logistics can be contracted by those companies required under ADR (Section 1.8.3) to appoint a DGSA and provide compliance with the regulations.

**Specialist Services**

We provide a full planning and consultancy service for those customers who need to overcome the complex transportation needs often experienced with major projects or difficult commodities.

**Our Vision**

"We are committed to providing our customers with competitive but fully compliant, tailored solutions to their Dangerous Goods shipping requirements.

We will continue to recognise both our customers and suppliers as individuals and to develop relationships that are built on trust and integrity and will ensure the long-term viability of all of our businesses".
